### Designer Insight

“The transformation of this client’s staircase renovation is truly remarkable. What once was a dark and gloomy entrance, is now a spacious and airy welcome home. The use of glass here is particularly clever by allowing much more natural light to flow through, both upstairs and downstairs. It’s transformational and looks like a completely different home!”

Designer Insight

"

The brief was inspired by Asian prints, which was brought into place with the gold oriental wallpaper and cushion covers. But most importantly the client was adamant they wanted to veer away from a conventional dressing room with neutral colours. Vibrancy was an essential so we ensured the wardrobes and units were bright and bold.
